RIP: We are sad to note the passing of longtime NRC member and noted DXer Chuck Hutton on May 9. Chuck was the editor of IDXD when I first joined the club in 1977 and lived in Seattle since the mid-1990s. Our condolences to Chuck's family and all his many DX friends.

From the Publisher: We are now pretty much caught up on material for publication in *DX News* after a number of over-full issues the past few times out. We're still in an every-three-weeks cycle for the next couple of issues, so please keep your DX reports coming. When the static from thunderstorms isn't crashing about you, this can still be an interesting time of year for DXing – especially on the local (graveyard) channels, where fewer and weaker signals often allow for easier IDs. And of course, for those inclined, the FM E-skip season is getting underway.

And here's a periodic request for anyone in the club interested in helping put together materials for publication in *DX News*. The NRC has always been and remains an all-volunteer organization, and the more folks chip in with the work of putting the bulletin together, the better the product for all of us! Contact me (David Yocis) at NRCDXNews@gmail.com for more information.

NRC Log #45 Sold Out! The 45th edition of the *AM Radio Log* is SOLD OUT! The deadline to produce the 46th edition will be August 1. Wayne Heinen is still looking for help with proofreading for the new *Log*, and you can contact him via email at amlog@nationalradioclub.org or at NRC Log, P.O. Box 473251, Aurora, CO 80047-3251.

From the Archives

90 Years Ago: The May 1935 issue of *DX News* seems to be missing from the archive.

75 Years Ago: From the May 20, 1950 issue of *DX News*: Sixty members donated funds to purchase a new mimeograph machine for printing *DX News*. Bernie Duffy of Staten Island, N.Y. reported that the prior season was one of the best in his 22 years of DXing; highlights included LKS Norway, PRE-4 Brazil, and KHON Honolulu.

50 Years Ago: From the May 27, 1975 issue of *DX News*: C.W. Bailey published a summary of trans-Atlantic observations from Holden, Massachusetts on 324 nights (all but 5 of which had at least some TA signals) over the 13 months from March 1974-March 1975, including 135 receptions of Sinkiang, China on 1525 kHz. Russ Edmunds collected a number of reactions, positive and negative, responding to the recent review of the Dymek DA-3 antenna.

25 Years Ago: From the June 12, 2000 issue of *DX News*: Bruce Conti announced a "Longest Day of the Year DX Challenge" contest for DXing on June 21. Bill Hepburn published remembrances of DXing in the High Arctic (what is now Nunavut) in 1982-1985, including a bandscan from Eureka (80 degrees North, population 9, 11 in summer). Gerry Thomas reviewed the Palstar R30 general coverage receiver.

10 Years Ago: From the April 27, 2015 issue of *DX News*: The NRC's DX Audio Service published its final edition in April.

All DX News back issues through Volume 91 are available online at https://nationalradioclub.org/dx-news-archives/.

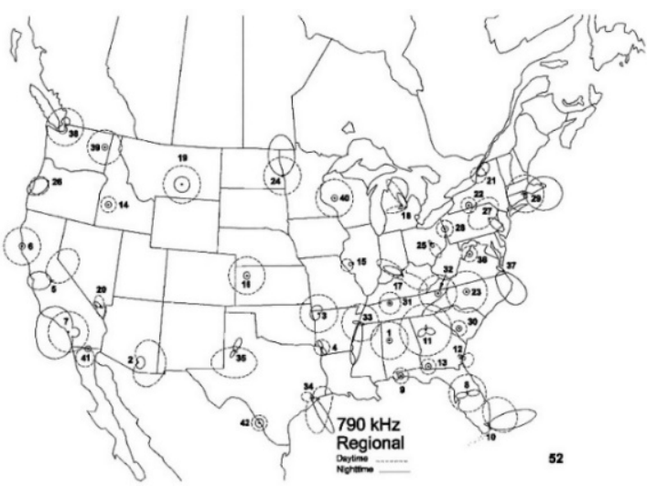
NRC *Antenna Pattern Book* 8th Edition

The 8th Editon of the NRC *AM Station Antenna Pattern Book* is now available. This all-new edition was prepared by Bill Hale and accompanies the 2018 (39th Edition) of the National Radio Club's *AM Radio Log*. The book comes shrink wrapped in 8½ by 11 three hole punch format for placement in your own three ring binder. The book has maps covering 530 through 1700 kHz showing day and night patterns for U.S., Canadian, and selected Mexican and Caribbean stations.



The book is available from the National Radio Club at PO Box 473251, Aurora CO 80047-3251 and Priority Mail to addresses in the United States for $28.95 for members and $35.95 for nonmembers. Canadian orders are US$45.10 and all other countries are US$62.25, both shipped Global Priority Mail.

The Pattern book may also be ordered using Pay Pal from our website http://www.nationalradioclub.org/ at slightly higher prices.

- - - NOTES FROM CANADA - - -

Jon Pearkins jon@pearkins.com

Vista has taken full control of the Bell stations that they purchased in British Columbia, and none of the stations have changed format. All the AM stations are listed below. Most of them now use the 'Summit' branding that were formerly branded 'Bounce,' as Bell retained the 'Bounce' brand. Based on the new Vista station logos and web sites, the original press release and DXer reports, the 'Summit' branding appears to vary slightly from station-to-station depending on the frequency, used before or after "Summit," and whether AM is mentioned.

580 CHAH **AB** **Edmonton – 4/27 0010-0013 –** Open Carrier from when tuned in until **0013**. Second time Open Carrier heard at beginning of same 0000-0100 Chinese language programming block. Also . . . noticed twice recently with 5-10 minutes of Open Carrier at the beginning of the **0001-0100** weeknight Chinese-language programming block. This station is worth watching by those where CHAH is dominant on 580. **(JP-AB)**

590 CFTK **BC** **Terrace –** Switched branding to 'Summit.'

630 CFCO **ON** **Chatham –** Has been approved to move to FM on 91.3 MHz with 1250 Watts non-directional from a height of 435 feet above average terrain. The customary three-month simulcast period has been made mandatory – area station that I could not hear in awful conditions, presumably indicating they were off the air.

700 CJLI **AB** **Calgary – 5/5 2345 & 0020 –** Was the only Calgary area station that I could not hear in awful conditions, presumably indicating they were off the air. **(JP-AB)**

800 CKOR **BC** **Penticton –** Has switched their branding to 'Summit.' Noted overnight April 29-30 on their 10 kW non-directional day pattern.

870 CKIR **BC** **Invermere –** Has switched their branding to 'Summit.' Any mention of the frequency will be "106.3" and call letter IDs will be "CKGR-FM," as they rebroadcast CKGR-FM 106.3, Golden, BC.

880 CHED **AB** **Edmonton –** With the NHL's Edmonton Oilers still in the playoffs, CHED is airing a lot of Oilers-based programming, as well as play-by-play of all Oilers games. Don't get confused by the endless mentions of "Rogers," a competitor to CHED

owner Corus, as they are the Canada-wide owner of the broadcast rights for NHL Hockey.

890 CJDC BC Dawson Creek – Their new slogan is "The Ranch AM 890."

1150 CKFR BC Kelowna – Their slogan remains 'AM 1150 News, Talk, Sports.'

1240 CJOR BC Osoyoos – Switched branding to 'Summit.'

1340 CFKC BC Creston – Switched branding to 'Summit.' Any mention of the frequency will be "95.7" and their call letter IDs will be "CJAT-FM," as they rebroadcast CJAT-FM 95.7 Trail, BC.

1400 CIOR BC Princeton – Has switched branding to 'Summit.' Any mention of frequency will be '800' and call letter IDs will be 'CKOR,' as CIOR rebroadcasts CKOR 800 Penticton, BC.

1070 CHOK ON Sarnia – 5/9 0650 – "Dave and Sheryl on 103.9 CHOK." C&W music. Poor, with no WTSO. **(JJR-MI)**

1090 KMXA CO Aurora – 5/8 0053-0100 – No ID, but carrier went off air at **00100:03**, the station's daily signoff time. In otherwise terrible conditions, with no sign of regulars KPTR Seattle, Washington and KBOZ Bozeman, Montana, but also hearing KANN Roy, Utah all alone on 1120 at the same time, indicating a regional opening. All- male talk in Spanish except a brief female speaker just before sign-off, with no English words heard. Strongest signal slightly East of South. First time heard, but suspect still on 50 kW day power/pattern as their 500 Watt night pattern sends less than 50 Watts in my direction. **(JP-AB)**

1100 WZFG MN Dilworth – 4/26 0301-0304 – Presumed, as they are the only FOX News on 1100 listed on the Fox web site or NRC Log. Also heard mention of "News Talk," which does not fit any known slogans on 1100. All alone but very tentative as signal was not that clear other than the FOX News signature melody. Also verified the FOX News announcer's voice against KPTR-1090. Could be on 440 Watts night power as their directional pattern points right at me. **(JP-AB)**

1100 WZFG MN Dilworth – 5/8 0707 – With various Minnesota and North Dakota news headlines. Poor, but alone: no WISS or WTAM. **(JJR-MI)**

1120 KANN UT Roy – 5/16 0332:30 – "This is SOS Radio" between two Contemporary Christian Music vocals. Strong, clear and all alone with antenna pointing South; possible signs of regular powerhouse KMOX when nulling KANN. Despite both day and night patterns with lots of signal in my direction, KANN was only heard once on May 8 but otherwise not for years. **(JP-AB)**

1150 WMST KY Mount Sterling – 5/3 0717 – playing 'Don't Give Up on Us' by David Soul, then calls into an ad. Poor – No WHBY. **(JJR-WI)**

1150 KASM MN Albany – 4/27 0734 – Poor, with ". . . weekend farm programming on KASM at 6:34." Alone; no WHBY. **(JJR-MI)**

1150 CJSL SK Estevan – 4/28 0928 – 'Crazy On You' by Heart. Same as CFSL-1190 songs. Very Poor, with others. **(JJR-MI)**

1190 KKOJ MN Jackson – 5/10 0702 – Poor, with "True Country" and Legal ID, a C&W song, and then . . . WOWO out of nowhere. Only second time heard! Rare! **(JJR-MI)**

1190 WPVW MN Wabasha – 5/8 0745 – 'Pure Country' into Q Media Sports. Poor, no WOWO at all. **Also logged on 5/14 @ 0651 –** With 'Pure Country WPVW-99-7 FM' and playing Classic Country. Over WOWO! A Shocker! Very poor. **(JJR-MI)**

1210 WJNL MI Kingsley – 5/8 0702 – Very poor, with "Wine Country Radio," C&W music. The only one there. **(JJR-MI)**

1230 WFXN IL Moline – 4/27 0727 – Poor, with National ads, then weather tagged "Fox Sports 1230." **(WCWA adds "The Gambler")**. Assumed. **(JJR-MI)**

1230 WJOB IN Hammond – 5/14 0753 – Poor, with local tele-talk. Mentions of 'Northwest Indiana' and 'Bolingbrook, Illinois' mentions and 'Baseball Hall of Fame.' **(JJR-WI)**

1230 KGHS MN International Falls – 4/27 0819 – "Classic Oldies 1230 AM – 95.3 FM" between songs. Poor, but Alone! **(JJR-MI)**

1230 WBVP PA Beaver Falls – 5/1 2200 – 'Wildfires' PSA, dual legal ID along with WMBA-1460 Ambridge, PA. Fair. **(TN-WI)**

1240 WJON MN St. Cloud – 5/1 2300 – Promo for a Friday morning talk show, calls and mention of their 95.3 translator, into news. Fair. **(TN-WI)**

1240 WOBT WI Rhinelander – 4/30 2100 – ID with translator, slogan: "101-3 The Game." Fair-Good. **(TN-WI)**

STATION NEWS

1270 WHLD NY **Niagara Falls –** Per Radio Ink https://radioink.com/2025/05/09/shulas-stable-grows-as-cumulus-sells-buffalos-talk-1270/ Radio One Buffalo, owners of WECK-1230, reached a deal to acquire WHLD-1270 from Cumulus Media. WHLD will likely flip from conservative talk to oldies. They put a decent daytime groundwave signal into Toronto, while graveyarder WECK is marginal at best. **(MKB-ON)**

1620 ---- OH **Xenia –** For the 6th year, the Dayton Hamvention will broadcast to more than 30,000 inbound patrons on AM frequency 1620. The "Hamvention Information Station" program will include standard parking and directions plus interviews with the mayor of Xenia, event organizers and patrons as they walk among the exhibits. A new tech segment will feature answers to "Way too Easy HAM Radio Questions." **(MKB-ON)** [*May 16-18 – DY*]

Unreported Stations

No fewer than three stations were reported to DDXD in this issue for the first time since at least Volume 67 (1999-2000) – WLVA-580, WFUZ-1240, and (albeit tentatively) WJKN-1510. In addition, now that WWTM has moved to 1390, we'll add them to the unreported list on their new frequency. So that means we have only 153 currently licensed, full-power AM stations in the United States and Canada which have not been reported to DDXD during this time.

The last full list was published in issue 91-18 last July and has been updated electronically a couple of times since in *DXtra News*. Can you report one next time?

TRANS-ATLANTIC DX

1107 **SPAIN** *RNE5* synchros MAY 17 0040 – Not much other than time pips getting through lightning noise; easily spotted *RNE5* Cáseres with measured low offset frequency 1106.958 kHz separate from the collection of closer to nominal synchro signals. [Conti-NH]

1476 unID MAY 5 0357 – JJBBA carrier, only 9/kHz TA one in careful full MW bandscan direct, surely *TWR* Benin, with its low-latitude advantage, per MWlist from 0320 M-F in Hausa, 150 to 200 kW. I wonder if it be directional favoring Nigeria, disfavoring us. [Hauser-OK]

PAN-AMERICAN DX

610 **MEXICO** XECCBS *La Q*, Fresnillo, Zac. MAY 9 0200 – New station on air with ranchera music(?) and full ID mentioning 10 kW. Good signal, but not consistent enough to verify its schedule. [Jeziorski-QRO]

630.05 unID MAY 5 0406 – Low audible het (LAH) against 630.0 stations. MWoffsets has nothing further off than 630.006 kHz. MAY 11 0609 – JBA het to 630.00 stations. KHOW Denver had been reported offset plus but not that much. Tim Hall: "For what it's worth, KHOW was operating around 630.019 the entire weekend of my Nevada-Utah border DXpedition last October." Next time I should try to DF it. MAY 12 0635 – Het upon 630.00 stations. This time I do DF it on the hand-held DX-398 to find it nulling at WNW/ESE so that means it's SSW/NNE, ruling out KHOW. Most likely XEFB Monterrey NL, or maybe XEPBGJ Guadalajara, by direction but supposed to be daytimer. Otherwise, WREY St. Paul MN, which is Spanish, 'El Rey'. [Hauser-OK]

660.83 unID APR 28 0252 – JBA carrier hetting 660.0 stations. Local or DX? [Hauser-OK]

670 **CUBA** *R.Rebelde*, multiple locations MAY 5 0403 – No WSCR Chicago! Rather Cuban music, but WSCR may be on with open carrier. Meanwhile, 720 WGN and 780 WBBM are very good as usual. At 0409 also audible a very weak station in English, could be KLTT or KBOI. By 0607 recheck, WSCR has resumed modulating sports talk. [Hauser-OK]

770 **COLOMBIA** HJJX, *RCN*, Bogotá MAY 9 0100 – "RCN" heard during possible sports broadcast; fair. [Jeziorski-QRO]

771 unID APR 28 0247 – JBA carrier making het with 770.0, KKOB or whatever. Another Cuban anomaly, like 1141 kHz? [Hauser-OK]

780 **MEXICO** XEGLO *La Voz de la Sierra Juárez*, Guelatao de Juárez, Oax. MAY 9 0800 – Good with music and slogan. This indigenous station normally has a 1200-0000 schedule, but sometimes leaves the AM on during night hours to simulcast the FM. [Jeziorski-QRO]

800 **MEXICO** XEERG, *RG La Deportiva*, Ojo de Agua, NL MAY 9 0600 – Presumed with Mexican national anthem. ID not heard, but the terrible modulation noted in recent months may have been addressed at least partially. [Jeziorski-QRO] MAY 11 0612 – KQCV in the clear, no extremely distorted co-channel interference, and not noted for several nights now, so maybe XEERG has finally been fixed or deleted! [Hauser-OK]

870 **CUBA** *R.Reloj*, multiple locations MAY 8 0645 – Occasional bits of wobbling under WWL. [Hauser-OK]

1020 **MEXICO** XEPR, *FM Globo*, Poza Rica, Ver. MAY 4 – Previously active station not heard while visiting the city of Poza Rica; local listeners say it is broadcasting intermittently. [Jeziorski-VER]

1040 **CUBA** *R.Mayabeque*, Güines MAY 5 0401 – Wobbler beneath WHO, only one currently audible. [Hauser-OK]

1110 **MEXICO** XERED *Radio Red*, México, CMDX MAY 18 0600 – Poor; choral national anthem. [Conti-NH]

1130 **VENEZUELA** YVRL *R.Ideal*, Maiquetía MAY 18 0800 – Fair with WBBR cancelled; religious talk in Spanish with palabra, señor, and Venezuela mentions. [Conti-NH]

1250 **MEXICO** XEVREP *Arre en AcustiK*, Veracruz, Ver. MAY 3 – Previously active station not heard while visiting the city of Veracruz; local listeners say it is broadcasting intermittently. [Jeziorski-VER]

1290 **MEXICO** XECCBU Salvatierra, Gto. APR 8 0325 – Heard with Mexican music and full ID that included "señal de prueba" (test signal), but not heard in May at a distance of 43 miles. [Jeziorski-QRO]

1300 **MEXICO** XECPAD *Radio UV*, Xalapa, Ver. MAY 2 – Previously active station not heard while visiting the city of Xalapa (possible open carrier caught by car radio scan); local listeners say it is broadcasting intermittently. [Jeziorski-VER]

1310 **MEXICO** XEQRMD, *W Radio*, Querétaro, Qro. MAY 1 1500 – After more than three years silent, my local station has returned to air, again with a poor signal given its proximity. Local listeners report that it maintains a mostly daytime schedule. [Jeziorski-QRO]

1549.8 unID MAY 5 0359 – JBA het against 1550.0 signals. In the May 12 edition of ARC *mv-eko*, Fredrik Dourén logged OAM5M *R.Visión*, Pisco, Peru at 1549.820 kHz, and Jan Edh reported Peru at 1549.819 kHz, closely matching the unID I have been hearing and thought to be much closer XEREL in Morelia, Mexico! However WRTH 2025 and mwlist show hours of 3 kW OAM5M are 1100-0205 UTC while I have been hearing that later overnight. Pisco is right near the coast south of Lima. More like south/southeast from here than Morelia south/southwest. I need to DF it again. [Hauser-OK]

1550 **CUBA** *R.Rebelde*, Cienfuegos MAY 18 0800 – Poor; offset frequency measured 1549.987 kHz listed as Cienfuegos, the lowest offset signal observed here. Calibration checked against 1550.000 CBEF. [Conti-NH]

1570 **MEXICO** XERF Cd. Acuña, Coah. APR 30 0536 – Female Spanish voice marking the first time heard in over a year, which is not surprising given how dreadful the DX conditions have been most nights. Initially noted with signs of KBCV Hollister but they disappeared almost immediately. [Pearkins-AB]

1610 unID MAY 11 0621 – Dead air at s9+, suspected CHHA Toronto, the only North American on this 'clear' channel – except for HAR/TIS: hundreds of them listed, almost all 10 watts, including three in Oklahoma: OKC, Davis and Jet – the latter has been gone for a few years. Listening further, a trace of modulation, interference or CHHA? In South America there is one 1610 in Argentina +3 inactives, and two in Perú, all low-power. [Hauser-OK]

TRANS-PACIFIC DX

846 **KIRIBATI** *R.Kiribati*, London, Christmas Island MAY 3 0630 – JJBBA carrier. Almost every night I check for signs of *R.Kiribati* reactivated, which used to be regularly detectable, since it's on a 'clear' split and very far east, same longitude as Hawaii. This is so weak that I am far from sure it's not a spoiler birdie. Ron Howard: "Checked May 4, a few times after 0445+ and heard nothing on 846, via several NZ remotes; was a clear frequency." [Hauser-OK]

INTERNATIONAL NEWS

GRENADA: 1400 *Harbour Light*, Carriacou is back on the air from April 26. "We are now at 10 kW. We received our DCC Exciter and I began the installation process yesterday. Hopefully by this evening that will be activated." [Randy Cornelius in a letter to Mauno Ritola, ARC mv-eko] *Harbour Light* had been off the air since July 1, 2024, due to extensive damage caused by Hurricane Beryl.

NEW ZEALAND: There have been some major changes on the AM band in New Zealand, with some AM stations changing sometime back and others changing more recently.

531 ***More FM*,** Alexandra, has closed its AM frequency and now operates on FM.
639 ***RNZ National*,** Alexandra, has closed its AM frequency and now operates on FM.
711 ***Sport Nation*,** Wellington, has closed this frequency and now operates on **1233 kHz**.
846 ***Newstalk ZB*,** Masterton, has closed its AM frequency and now operates on FM.
891 ***Magic*,** Wellington, has closed its AM frequency and now operates on FM.
927 ***Newstalk ZB*,** Palmerston North, has closed its AM frequency and now operates on FM.
1071 ***RNZ National*,** Masterton, has closed its AM frequency and now operates on FM.
1089 ***Gold/Sport*,** Palmerston North, has closed its AM frequency and now operates on FM.
1134 ***RNZ National*,** Queenstown, has closed its AM frequency and now operates on FM.
1449 ***RNZ National*,** Palmerston North, has closed its AM frequency and now operates on FM.

Also, all ***SENZ* stations** now identify as *Sport Nation* and all *Star* stations now identify as *Sanctuary*. The format of each respective network remain sport and religious programming. Thanks to *Radio*

Heritage, *NZRDXL* and various other sources for this information. [Robert Copeman, ICDX-AM iog, via mediumwave.info]

TURKIYE: "This evening I heard Turkey on MW for the first time in many years. On 927 kHz *Power 927* from Italy was sharing the channel with *Radio Bir* from Turkey. The language definitely sounded like Turkish so I cross checked with the webstream from *Radio Bir* and also with a remote SDR in Cyprus (which wasn't a good signal). Bir had time pips at 2200 UTC (April 25) followed by news programme. Reception on BDMR." [Steve Whitt to MWCircle iog] April 24, the TRT transmitter in Izmir was unexpectedly activated on **927 kHz**. Presumably due to the earthquake, the cultural program was broadcast in good quality. The mention of CJAT-FM in last issue's Domestic DX Digest - West, as the station that CFKC-1340 Creston BC rebroadcasts, brought back memories of my first paid on-air announcing job. It too was at CJAT-FM in Trail BC, though not technically the same station. The current station resulted from the 1994 flip of CJAT-610 to FM. The CJAT-FM where I worked is now CBTA-FM, a rebroadcaster of CBC Kelowna's CBTK-FM. Then, as now, 13,500 watts from the top of Red Mountain, North of Rossland.

Back in 1972, when I was there, Management told me that CJAT-FM had more listeners in Spokane WA than in Trail, thanks to its mountain top transmitter location and power. It was also carried on Cable FM in both Edmonton and Calgary AB. All of which meant that weather reports on the station were rather lengthy, covering Calgary, Edmonton, Spokane and, of course, the East Kootenays, which includes Trail. It was good practice for my later work reading long weather forecasts at CFPR-860 Prince Rupert BC and CFYK-1340 Yellowknife NWT, as both stations had over a dozen CBC LPRTs spread across a large area.

Although larger markets were no longer allowed, as of September 1, 1971, to AM-FM simulcast, Trail was a small one-station market, and 50% simulcasting was still allowed. On weekdays, CJAT-FM simulcast CJAT-AM for the 6-7 PM CBC network News/Information hour, and from sign-on until 2:00 pm. In all Canadian markets, AM-FM simulcasting was still allowed from midnight to 6:00 AM, as the CRTC did not consider that part of the Broadcast Week.

Despite a lower hourly wage, $1.75/hour minimum wage versus the $2.50/hour that I had been making at CHQM, I still made more at CJAT than I would have at CHQM where 28 hours/week was the maximum they allowed part-time Operators like me to work. CJAT paid me for 40 hours on-air per week, spread across six days, with Prep Time on my own time, and doing my own hourly Newscasts. It sounds like a lot of hours, but CHQM's full-time Operators worked 46 hour weeks, which was the maximum then legally allowed without overtime pay.

At CJAT, Sunday was my toughest shift, 6:00 pm to 1:15 am signoff, with the first six hours all alone in the station, running separate programming on AM and FM. No automation and no voice tracks with all music on vinyl. Admittedly, 10:35 PM to midnight on AM was a CBC network program, with the rest of the shift a Top 40 format. FM was a combination of pre-recorded and live CBC network programming, with 30 second live local breaks. The only true conflict was a 30 second break on FM during a five minute Newscast on AM.

The midnight to 1:10 AM AM-FM simulcast was the highlight of the week. I could play what I wanted to as Management was already in bed in preparation for the long workweek ahead. I also added a five minute segment to the 1:00 AM News that I compiled from the huge amount of material on the "Weird" peg in the Newsroom where the week's weird stories were placed, as they came in on the Broadcast News teletype. Stories like the multi-billion dollar proposal for a high speed subway from Los Angeles to New York City, using Magnetic Levitation, which was both environmentally

friendly and exceedingly inexpensive. Or the details of the briefcase that accompanied President Nixon wherever he went, so that he had access to the Nuclear Codes should the need arise.

I didn't think about it at the time, but some stations on 610 still went off the air for transmitter maintenance at midnight Sunday nights. As a result, the only known aircheck of me on CJAT-AM was recorded by a DX'er in Seattle. Listening to it again fairly recently, I discovered two interesting facts. Every time that I opened the microphone switch, I was seriously overmodulating, thanks to my ill-advised technique to talking across the Cardioid microphone, which boosted the bass in my voice. CJAT's AM audio compressor was primitive, monitoring the audio level at a single audio frequency, probably 1000 Hz. On the positive side, that recording surprised me with my flawless delivery after more than seven hours on the air, including six hours of running two separately programmed stations.

At my next job, and my all-time favorite job, at CFPR in Prince Rupert BC, I once mentioned to someone that this one hour was my favorite of the week. Next thing I know, everyone at CFPR thought I had been only on the air one hour a week at CJAT. The Grapevine is like that. I later found out that everyone thought I was an American Draft Dodger because my Vancouver accent sounded to Prince Rupert residents like I was from the U.S.

A friend at CJAT lent me a radio. First thing I did that night, was to tune it to CHQM and suddenly feel very, very homesick, as I wondered which of my former CHQM co-workers were operating the voice tracks that evening.

Veries: WJLK, KSL. Both on 1160, NJ and UT, both new states verified. I haven't been listening much on MW lately but shifted over to shortwave. I'll get back to MW soon. It's starting to get hot here and summer means thunderstorms. We need the rain so hope we get it without the hurricanes. 73's, Martin.

Linda Brodsky, Malverne NY

Haven't done any MW listening in several weeks but I'm looking forward to traveling to CO with my Airspy HF and You Loop in tow in a few days. If things stay true to form, the MW band always seems more varied there, no matter the season. Hope I have some interesting catches to share in the next issue. 73.

Tim Hall - US 6/50 at NV/UT Border, UT		43	42	39	47	45	42	258

The WATT-1240 record above was the result of a rejoin (I had Rick's previous record in my files). With the recent membership audit, US records for the following stations were vacated: WONN-1230 Lakeland, FL; WENY-1230 Elmira, NY; WEUS-1240 Eustis, FL; WWFL-1340 Clermont, FL; WMID-1340 Atlantic City, NJ; KBLJ-1400 La Junta, CO; WAOV-1450 Vincennes, IN; WCRS-1450 Greenwood, SC; WUBR (WLAW)-1490 Whitehall, MI. About 330(!) Canadian records held by former members have also been vacated. Since all of these Canadian records were claimed before my tenure as editor, I have no older records to roll these back to. In the cases shown above, I backfilled my own old loggings from vacations and business trips to get things started. Thanks to Wayne H. for updating the GYDXA web pages to reflect all of these changes. 73 Tim

Pro Sports Networks

Barry Finkel, 10314 S. Oakley, Chicago IL 60643-2409, **bsfinkel@att.net**

Below is the Cbicago White Sox network list. The other lists that I did not have in the last column still have not yet been updated.

Also I have corrections from Marc DeLorenzo: "Here are a few corrections on Boston Red Sox Radio announcers. Delete Joe Castiglione as he retired at the end of last season. Add Will Middlebrooks, his replacement. Delete Lou Merloni as he is doing TV only at this point. Sean McDonough will probably do only a handful of games."

FCC Construction Permits

At this time, the FCC is only accepting applications for "minor modification" CPs from currently licensed stations. This means that the new facilities, when built, would overlap sufficiently with the already-licensed facilities that both could not be authorized simultaneously. This allows for frequency

moves of up to 30 kHz (but not more), as well as geographical moves within the coverage overlap area.

The FCC also requires a CP for corrections to a station's geographical coordinates of at least 3 seconds of latitude or longitude, even if no actual "construction" will take place.

With the FCC's transition to the new Licensing and Management System (LMS) for processing station applications, including for CPs as of mid-2023, coordinates are given in the "NAD83" reference system (to the nearest tenth of a second). Older applications and authorizations are in the "NAD27" system (to the nearest second), and the coordinates of any given station in the two systems may vary by a couple of seconds, especially in longitude. Coordinates below in the format "40-00-00.0, 80-00-00.0" are NAD83 and in the format "40-00-00/80-00-00" are NAD27. All latitudes are North and all longitudes are West, unless otherwise specified.

Once the CP is substantially built, the station applies for a "license to cover" (LTC) the CP, containing data about the actual operation of the constructed facilities. In most cases stations that have submitted an LTC application will use the CP facilities on the air under "program test authority." If the station does not file for an LTC within 3 years of the grant of a CP, the CP expires and the station must reapply for a new CP if it wishes to proceed with the project.

The following is current as of Sunday, May 18, 2025:

These 7 CPs have a pending application for a license to cover:
